

Dear Parents of _____ Elementary School Girls on the Run,

We are asking your permission to take your daughters off campus and into the surrounding neighborhoods to run a 2-mile training course. It has been mapped out and we feel that the trail will help the girls get a better feel of what the final race will be like.

We have several coaches available to assist the girls and keep them as a group. They will never be left to run without an adult. We will complete the run in the time allotted for the Girls on the Run training session.

Thank you for your cooperation!
